

Here's how to apply your edible photo

How to store me:

- Keep me flat in my bag in a cool, dry place (not a fridge), away from direct sunlight
- Please use me within 4 weeks

How to apply me (apply just before serving):

- Remove me from my zip lock bag in normal room conditions to ensure I'm dry
- Place me in a freezer for 30 seconds – 1 minute
- Quickly and carefully peel my backing off
- Apply me to either royal icing dabbed with a bit of luke warm water, or butter cream
- Don't apply me to anything too wet, or my colours are prone to bleeding

Still having trouble removing me?

- Occasionally the humidity of the room causes moisture in the sheet– I need to dry out!
- Place in a warm fan oven for a couple of minutes, or use a hairdryer
- Wait to stiffen and peel backing away
